**Congresswoman DeLauro  
59 Elm Street  
New Haven, CT 06510**

**Latin Americans are fighting to make a change, now it's our turn.  
We need to act NOW.**

Dear Congresswoman DeLauro,

I am writing because I am concerned that present U.S policies are not doing enough to protect our environment. Our current trade agreements and environmental policies are doing more harm than good to our world. Its time we took responsibility to correct our actions.

Our current trade acts need to be repaired. We need new policies that achieve basic goals such as good jobs, safe food and promotion of basic human rights, healthy communities and environmental protection. The Trade Reform, Accountability, Development and Employment (TRADE) Act outlines these goals. Thank you for already having co-sponsored this act.

I would like you to continue to support the environment by supporting legislation for reforms at home. Our damaging actions hurt more than just the United States. We need to help ourselves and lesser-developed countries by reducing carbon pollution and enforcing environmentally friendly practices. The Carbon Limits and Energy for America's Renewal Act (CLEAR) Act is a great place to start.

Please continue to fight for economical and environmental justice at home and abroad by supporting this legislation.

Sincerely,

Hartford, CT 06103**

**Latin Americans are fighting to make a change, now it's our turn.  
We need to act NOW.**

Dear Senator Lieberman,

I am writing because I am concerned that present U.S policies are not doing enough to protect our environment. Our current trade agreements and environmental policies are doing more harm than good to our world. Its time we took responsibility to correct our actions.

Our current trade acts need to be repaired. We need new policies that achieve basic goals such as good jobs, safe food and promotion of basic human rights, healthy communities and environmental protection. The Trade Reform, Accountability, Development and Employment (TRADE) Act outlines these goals. Please support the TRADE Act as an alternative to the NAFTA model.

I would also like you to support environmental reforms at home. Our damaging actions hurt more than just the United States. We need to help ourselves and lesser-developed countries by reducing carbon pollution and enforcing environmentally friendly practices. The Carbon Limits and Energy for America's Renewal Act (CLEAR) Act is a great place to start.

Please take a lead in the fight for economical and environmental justice at home and abroad by supporting this legislation.

Sincerely,
